Expression of Interest

Invasive Biosecurity Outcomes for the Southern Gulf Region

Southern Gulf NRM is inviting expressions of interest (EOI) from land owners in the Flinders Shire, with a focus on upper Flinders Catchment to participate in our invasive weed project, running from November 2025 to June 2029.

This project aims to improve land condition across the project area, with a strong focus on controlling invasive weed species along waterways.

ELIGIBILITY CRITERIA

- Project Area:
  - Properties must be located within the Flinders Shire Local Government area.
    - With a focus on upper Flinders Catchment.
    - Located adjoining other properties in the same catchment also participating.
- Landowners must be committed to active participation over the project duration.
- Must agree to provide site access for SGNRM monitoring and reporting purposes.

KEY DELIVERABLES FOR THIS PROJECT

- 32 land managers engaged in coordinated invasive weed management.
- 48,000 hectares of improved land condition through targeted on-ground works.
- Focused investment in high-impact watercourses and difficult terrain, where weed control delivers the greatest benefit.
- Reduced density of priority weeds across project area.
- Catchment based approach to management, with a focus on entire tributaries being the optimal treatment outcome.
- Strengthened invasive biosecurity partnerships and improved data for regional monitoring and evaluation.
- Demonstrated improvement in land condition and agricultural productivity, communicated to the wider community to encourage best practice.

HOW TO APPLY

To register your interest, please complete and submit the Expression of Interest form by 7 January 2026.

EOI submissions must include:

- Property location and size
- Brief outline of current weed/pest issues
- Your interest and capacity to participate
- Contact information

Submit your EOI to:
Anthony Hoyal or Robyn Young
anthony.hoyal@southerngulf.com.au
robyn.young@southerngulf.com.au
