Expression of Interest

Feral Pig Reduction for Improved Wetland Health in the Southern Gulf Region

Southern Gulf NRM is inviting expressions of interest (EOI) from landowners to participate in our wetland/waterways health improvement project running from July 2025 to June 2028.

This project aims to improve wetland and water quality by reducing feral pig numbers in critical wetlands within the Southern Gulf region.

HOW TO APPLY

Submit your EOI in writing to:
Al van Deventer or Robyn Young

- alet.vendeventer@southerngulf.com.au
- robyn.young@southerngulf.com.au

To register your interest, please complete and submit an Expression of Interest in writing by 14 January 2026.

KEY DELIVERABLES FOR THIS PROJECT

The project aims to achieve the following outcomes:

- 10 participating properties engaged in coordinated feral pig control using humane, best-practice methods.
- Conduct wetland health monitoring at 10 control sites.
- Conduct additional monitoring at 10 downstream sites using best-practice research methods.
